CAREER OBJECTIVE

To grow as a skilled professional in MarTech and data analysis, while contributing to Capgemini by leveraging technology and analytical thinking to deliver meaningful, data-driven customer experience solutions. Aim to continuously develop my expertise, take on new challenges, and contribute to the success of the organization.

TECHNICAL SKILLS

- **Adobe Experience Cloud:** Adobe Experience Platform (AEP), Customer Journey Analytics (CJA), XDM, Datasets, Data Ingestion, Identity, Segmentation, Data Views, Dimensions, Metrics
- **Programming Languages:** Java, Python, JavaScript
- **Database & Querying:** MySQL, MongoDB
- **Web Technologies:** HTML, CSS, React, Angular, Express.js, Node.js
- **Frameworks:** Spring Boot, Hibernate, JPA
- **Tools & Concepts:** REST APIs, VSCode, Postman, RAG, Prompt Engineering

TECHNICAL EXPERIENCE

Adobe Experience Platform (AEP) & Customer Journey Analytics (CJA) – Hands-on Experience

- Gained hands-on experience with AEP schemas, XDM, datasets, data ingestion and identity management.
- Worked on data mapping, experience event datasets, segmentation and Query Service.
- Performed hands-on activities in CJA Connections, Data Views, dimensions, metrics and classifications.
- Created and analyzed segments and customer journey data using AEP and CJA.

Software Engineer Intern | Capgemini | On-site **Mar 2026 - May 2026**

- **Technologies:** Java, Spring Boot, Angular, Hibernate, JavaScript
- Developed a responsive e-commerce web application (DCX App Store) using Angular, implementing reusable UI components, routing, forms, and responsive layouts, while gaining hands-on experience with Spring Boot backend concepts, Hibernate ORM, and database integration.

EDUCATION

- **Dayananda Sagar Academy of Technology and Management, VTU** **Sep 2022 – Aug 2026**
  Bachelor of Engineering (B.E) - CGPA : 8.7

PROJECTS

DreamJobs – AI-Powered Job Portal | Java, Spring Boot, React, PostgreSQL, REST APIs **Aug 2026**

- Developed a full-stack job portal supporting job search, applications, saved jobs, recruiter job management, interview scheduling and admin controls.
- Implemented JWT authentication, role-based access control and REST APIs, with PostgreSQL database integration using Spring Data JPA/Hibernate.
- Integrated AI-powered resume analysis, resume improvement and personalized job recommendations using an AI API.

Fitness ChatBot **Jul 2024 - Aug 2024**

- Fitness ChatBot (AI-Powered) Created an AI-driven fitness chatbot using Gemini AI, offering personalized workout plans, diet suggestions, and fitness tips. Gained hands-on experience with API integration, data fetching, and handling dynamic AI responses.

ADDITIONAL INFORMATION
